

**Invitation for a free webseminar**  
**On Tuesday, October 22, 19:00-19:45 (CET)**  
DIAGNOSTICS FOR PRACTITIONERS  
**Diagnosing haematopoietic tumours**  
**in dogs and cats**

Dear colleague,

Short and sweet: Discover the secrets of sample handling, result interpretation, and vital differentials – all in only 45 minutes.

 **Speakers**

**Sandra Lapsina, Dipl. ECVCP**

**Dr Annemarie  
Baur-Kaufhold**

 **Topic**

**Diagnosing haematopoietic tumours**  
**in dogs and cats**

Haematopoietic neoplasia can be challenging to detect and diagnose.

To shed some light on this, we will guide you all the way: From recognizing atypical cell morphology microscopically and on scattergrams to choosing the right method for further diagnostics (cytochemistry, immunocytochemistry, immunophenotyping via flow cytometry and PARR). Together, we will cover these methods and more, including common pitfalls when diagnosing haematopoietic neoplasia in dogs and cats.

**Time:** 19:00 – 19:45 (CET)

**Date:** Tuesday, October 22, 2024

Register **free of charge** using the following link:

<https://app.seminarmanagercloud.de/58/kl/bp/Fk7tOK0g0UWf8qoe7ilPfw>

If you have any questions, feel free to contact us at [webseminar\\_int@laboklin.com](mailto:webseminar_int@laboklin.com).

Once you complete your registration, you will receive a confirmation email containing the webseminar link. If you are unable to attend the live session, no need to worry! A recording will be made available to all registered participants afterward.

We are excited to have you join us online!
