

INVITATION for a free WEB-SEMINAR
On Wednesday January 12, 19:00-19:45 (CET)
“Only prostatitis? How the prostate gland may trick you!”

Dear colleagues,

Today we would like to invite you to our next webseminar.

Nobody is perfect, right? But why not make the best out of these cases that have gone wrong? It is self-reflection that makes us excellent vets. You will see how this kind of work-up will propel you to an even higher level of clinical excellence.

Differentiation between prostatitis, prostatic hyperplasia and prostatic carcinoma on the one hand, and prostatic cyst and abscessation on the other, is not always easy. The work-up of two clinical cases will highlight the pitfalls, and give you guidance on what to be aware of.

SPEAKER

Dr. Jennifer von Luckner DECVIM-CA, FTA Kleintiere + Innere Medizin Kleintiere, is a Small Animal Medicine Specialist certified by the European College of Veterinary Internal Medicine. She graduated in 2002 from the University of Veterinary Medicine, Hannover, Germany. In 2004, she was awarded a doctor title for her thesis ‘Vector-borne infectious agents in dogs in Greece’ by the Veterinary faculty of the University of Leipzig, Germany.
